

SELVERT THERMAL

GENÈVE - BARCELONA

Hydroaction Gel F1

The product has a moisturizing effect, is designed for combination oily and sensitive skin. It bases its action on the content of NMF (natural moisturizing factor), which includes urea, allantoin, high molecular weight hyaluronic acid. Provides long-lasting hydration lasting up to 24 hours. At the same time, the product does not burden the skin and does not clog pores. It absorbs quickly without leaving an oily layer on the skin. In addition, the cream contains biosaccharides which reduce the tendency of the skin to hypersensitivity and allergies. After using, the skin becomes soft, well moisturized and softened. The cream also contains sun protection, which prevents damage caused by the sun.

Active Ingredients

- Biosaccharides
- NMF 24h (urea, allantoin high molecular weight hyaluronic acid)
- SPF 15.

How to apply

- The gel should be applied twice a day, morning and evening to cleansed face and neck, gently massaging until completely absorbed
